# OUR PROGRAM

The purposes of the Master of Science Degree in Addiction Studies program are:

- 1) To increase the number and diversity of professionals in the addiction prevention and treatment (i.e., counseling) field.
- 2) To link theory to practice through classroom instruction and internships.
- 3) To provide the knowledge, skills, and attitudes for achieving and maintaining professional competence at different points in student careers.
- 4) To help prepare students for state certification.
- 5) To provide community-based outreach education, including emphasis on alcohol, tobacco and other drug abuse prevention and treatment.

# OUR TEACHERS

The faculty and staff of the University of Arkansas Pine Bluff Master of Science Degree in Addiction Studies program are committed to the success of our students. Our faculty and staff include professionals from diverse backgrounds including social work and rehabilitation counseling.

It is the daily duty of our faculty and staff to uphold the mission of our program and to provide a quality educational experience for each student. Additionally, our program administrators pride themselves in being available to students as needed. Our faculty and staff adhere to an open-door policy. If they're in the office, you're more than welcome to come in!

# OUR STUDENTS

The Master of Science Degree in Addiction Studies program prepares students for leadership careers in the prevention and treatment (i.e., counseling services) of addiction. Students learn to manage addiction facilities and develop new knowledge and skills in response to servicing client needs. Our students have successfully secured post-graduate careers as:

- 1) Clinical Supervisors
- 2) Substance Abuse Program Leaders
- 3) Coordinators
- 4) Adolescent Drug Counselors
- 5) Correction Counselors

Mission: The Master of Science Degree in Addiction Studies Program, which is the only graduate level program of it's kind in Arkansas, seeks to help improve the health of Arkansans.
